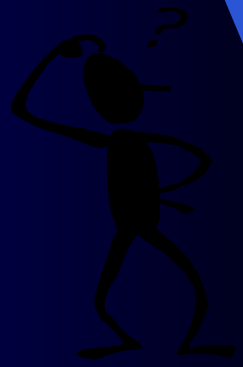
The Prerequisite Issue

RECENT SYSTEM CHANGES

Why Prerequisites?

- Manageability
- Progression control
- Automated accountability



Why Don’t They Work?

- Inhibit progression
- Removes waiver authority
- Are not curriculum driven
- Cannot be by-passed

Progression Vs Prerequisite

- **PROGRESSION**
  - Ensures ***A*** before ***B***
  - Allows individual waivers to process
  - Is not driven by curriculum
- **PREREQUISITE**
  - Ensures ***A*** before ***B***
  - Restricts waivers to AFSC requirement
  - Driven solely by curriculum

Revised System Solution

- Progression table has been built
- CFMs must define requirements
- New table will not be retroactive

What Can I Do?

- Evaluate all CDC material
- Submit requirement in writing
  - CDC should be placed on the progression table
  - CDC should be placed on the prerequisite table
  - CDC should not be on either table
- Ensure the difference is known
